Terms expire on June 30 of year noted.

#### THE SYSTEM'S ADVISORS

Consulting Actuary – Segal, San Francisco, California Independent Auditors – Plante & Moran PLLC, Cleveland, Ohio Investment Consultants – Callan Associates, San Francisco, California Jobs Peak Advisors, Minden, Nevada

<sup>\*</sup> These positions have since terminated their employment/contract with PERS.

#### MISSION STATEMENT

It is the mission of the Public Employees' Retirement System to:

- Provide public workers and their dependents with a retirement program that provides a reasonable base income for retirement or for periods where a disability has removed a worker's earning capacity.
- Encourage those workers to enter into and remain in government service for such periods of time to give public employers and the people of the State of Nevada the full benefit of their training and experience.
- Provide an orderly method of promoting and maintaining a high level of service to the public through an equitable separation procedure available to employees at retirement or upon becoming disabled.

#### MESSAGE FROM TINA LEISS, EXECUTIVE OFFICER

It is a pleasure to present the Popular Annual Financial Report (PAFR) of the Public Employees' Retirement System of Nevada (System or PERS), a component unit of the State of Nevada, for the fiscal year ended June 30, 2022.

The financial statements included in this report are the responsibility of the System's management and have been prepared in accordance with generally accepted accounting principles as promulgated or adopted by the Governmental Accounting Standards Board (GASB). In management's opinion, the financial statements present fairly the financial position of the System at June 30, 2022, and changes in fiduciary net position for the year then ended.

PERS administers a cost-sharing, multiple-employer defined benefit public employees' retirement system. The System was established by the Nevada Legislature in 1947. At the end of fiscal year 2022, the System had 221 participating employers, 108,635 active members, and 79,049 benefit recipients. The System is comprised of two sub-funds, Regular and Police/Fire.

One of the principal goals of the Public Employees' Retirement Board (Board) has been to stabilize contribution rates during volatile investment market cycles and demographic changes and to ensure cost predictability to employers and members. The 2022 actuarial valuation shows that the tools the Board has put in place to meet these objectives are working,

while maintaining the retirement security of all public employees.

The System is funded by contributions calculated as a percentage of employee salary. Although the System receives an actuarial valuation annually, the Public Employees' Retirement Act requires an adjustment in the statutory contribution rates on July 1 of each oddnumbered year, based on the actuarially determined rates indicated in the actuarial valuation report for the immediately preceding year.

As of June 30, 2022, the System's net position was \$54.5 billion, a decrease of \$4.0 billion from 2021. The fiscal year 2022 return was a negative 5.1%, which reduced \$15.5 billion in investment income. Investment performance was primarily driven by negative returns from U.S. Stocks, International Stocks, and U.S. Bonds. The funded ratio calculated as smoothed actuarial value of assets as a percentage of total actuarial accrued liability decreased to 75.1% from 75.4% in 2021.

Detailed information on the financial position of the System can be found in the June 30, 2022 ACFR at https://www.nvpers.org/publications/reports.

Respectfully submitted.

Tina Leiss

**Executive Officer** 

#### FINANCIAL SUMMARY

The System undergoes a financial audit by an independent auditor each fiscal year.

#### **Condensed Statement of Fiduciary Net Position**

The Condensed Statement of Fiduciary Net Position includes all of the System's pension trust fund assets, liabilities, and the net position at the end of the fiscal year.

| Total liabilities                               | 390,189,561         | 965,760,116         | (575,570,555)                      |
| Net position restricted for pension benefits    | \$ 54,514,012,008   | \$58,458,484,355    | \$ (3,944,472,347)                 |

#### Significant Changes from 2021 to 2022

Contributions receivable increased 12.4%, \$23.5 million, between 2021 and 2022 due to an increase in reportable wages of \$209.3 million and a decrease of \$6.8 million in contribution underpayments.

Pending trades receivable and payable decreased 93.7% and 85.7%, respectively, between 2021 and 2022. Pending trades fluctuate from year to year and are unpredictable.

Investments at fair value decreased \$3.8 billion from 2021 to 2022 primarily due to the negative 5.1% (time- weighted, gross of fees) total return generated by the System's investments in 2022. The investment performance was primarily driven by negative returns from U.S. Stocks, International Stocks, and U.S. Bonds.

Property and equipment, net, increased by \$2.9 million from 2021 to 2022 primarily due to costs incurred and capitalized for the new pension administrative system, PERIS.

Accounts payable and accrued expenses decreased by \$5.8 million between 2021 and 2022 primarily due to a decrease in contribution overpayments of \$5.0 million.

#### FINANCIAL SUMMARY (CONTINUED)

#### **Condensed Statement of Changes in Fiduciary Net Position**

The Condensed Statement of Changes in Fiduciary Net Position shows additions to and deductions from the pension trust fund during the fiscal year presented. Over time the increase or decrease in net position serves as a useful indicator of the health of the System's financial position.

|                                   | 2022              | 2021             | Increase/<br>(Decrease)<br>from 2021 to<br>2022 |
|-----------------------------------|-------------------|------------------|---|

| Other income                      | 3,703,489         | 3,262,309        | 441,180   |
| Total additions                   | (643,850,763)     | 14,779,186,689   | [15,423,037,452]                                |
| Benefit payments                  | 3,231,941,306     | 3,008,567,031    | 223,374,275                                     |
| Refunds of contributions          | 53,537,925        | 30,272,862       | 23,265,063                                      |
| Transfers of contributions to JRS | 1,689,041         | 4,424,263        | (2,735,222)                                     |
| Administrative expenses           | 13,453,262        | 12,530,326       | 922,936   |
| Other expenses                    | 50                | 25,208           | (25,158)  |
| Total deductions                  | 3,300,621,584     | 3,055,819,690    | 244,801,894                                     |
| Change in net position            | (3,944,472,347)   | 11,723,366,999   | 15,667,839,346)                                 |
| Net position, beginning of year   | 58,458,484,355_   | 46,735,117,356   | 11,723,366,999                                  |
| Net position, end of year         | \$ 54,514,012,008 | \$58,458,484,355 | \$ (3,944,472,347)                              |

#### Significant Changes 2021 to 2022

Net investment income decreased \$15.5 billion from 2021 to 2022 because the time-weighted investment return (gross of fees) of a negative 5.1% in 2022 was lower than the 27.3% returned in 2021.

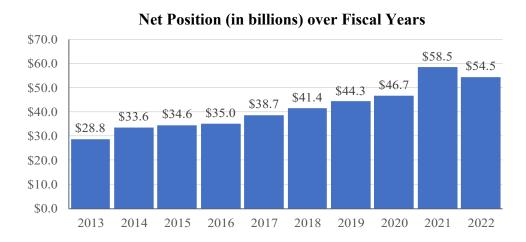

Benefit payments increased 7.4% in 2022 primarily due to the number of beneficiaries increasing from 75,955 in 2021 to 79,049 in 2022 and the average monthly benefit increasing from \$3,377 in 2021 to \$3,499 in 2022.

Refunds of contributions increased 76.9% and transfers of contributions to JRS decreased \$2.7 million in 2022. These amounts are unpredictable each year and depend on individual elections made by active and inactive members.

#### FINANCIAL HIGHLIGHTS

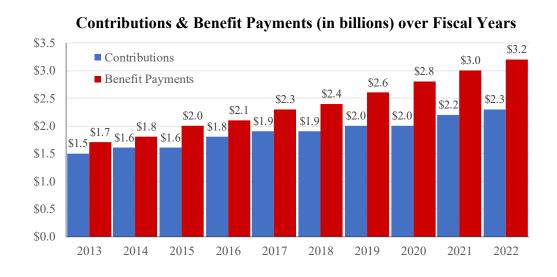

#### **Net Position**

Net position represents total assets less total liabilities. In fiscal year 2022, the net position decreased to \$54.5 billion.

#### **Contributions and Benefit Payments**

Benefit payments and contributions received by the System have increased over time. Benefit payments are paid from both incoming contributions as well as investment income.

#### **INVESTMENTS**

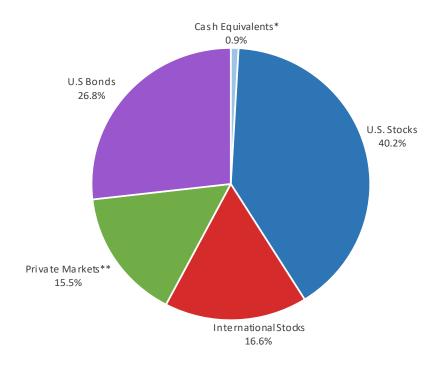

The investment program is designed to generate a long-term return that meets the System's objectives while minimizing risk.

The investment objective of the System is to:

- ❖ Generate a 7.25% long-term investment return which exceeds the rate of inflation (CPI) by 4.75% by capturing market returns within each asset class.
- Invest so that short-term volatility of returns will not cause the System to alter its long-term strategy.
- Structure an investment program which is sufficiently uncomplicated to control the ability to consistently meet return and risk objectives.

Asset allocation is the most significant factor influencing the risk and return of the investment program. The System uses an entirely indexed structure for U.S. Stocks, International Stocks, and U.S. Bonds. U.S. Stocks are indexed to the S&P 500 Index, International Stocks are indexed to the MSCI World ex USA Index, and U.S. Bonds are indexed to the Bloomberg Barclays U.S. Treasury 1-3 Year Index. The Private Markets investments are made up of actively managed private equity and real estate portfolios.

#### Asset Allocation at June 30, 2022

<sup>\*</sup>Includes cash held by investment managers.

<sup>\*\*</sup>Includes 9.1% Private Equity and 6.4% Private Real Estate.

#### **INVESTMENTS (CONTINUED)**

#### **Total Fund Performance**

The chart below illustrates PERS' portfolio performance over a variety of time periods. The fund's annualized rate of return is 9.4% since inception (38 years) versus the long-term actuarial objective of 7.25%.

#### **Asset Class Performance**

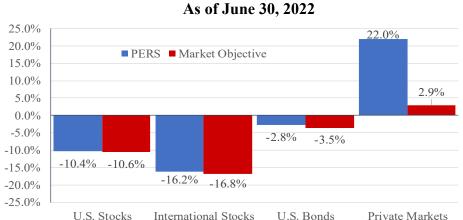

5 Years

10 Years

Since Inception (38 years)

The chart below shows PERS' Fiscal Year performance by asset class.

1 Year

# One-Year Asset Class Returns vs. Market Objective

The System's complete Investment Objectives and Policies may be found on the PERS website www.nvpers.org.

#### **ACTUARIAL**

The System's funding objective is to pay long-term benefits through contributions (and investment returns on such contributions) that remain relatively level from year to year. The amount contributed is a percentage of the salaries earned by members. Using this methodology, members and employers each pay equally for retirement service accrued by active members in any given year. While the System receives an actuarial valuation annually, contribution rates are adjusted on July 1 of each odd-numbered year, based on the actuarially determined rates in the actuarial valuation for the immediately preceding year.

#### **Funded Ratio**

One measure of a pension fund's health is its funded status. One factor to keep in mind is that all benefits the System is obligated to pay are not due and payable immediately. The funded ratio compares the actuarial value of assets to the actuarial accrued liability. Below is a chart showing the funding levels of PERS over the last 10 years.

#### PERS Funded Ratio by Fiscal Year

#### **Net Pension Liability**

The net pension liability is determined using actuarial methods required by the Governmental Accounting Standards Board (GASB) and is used for financial reporting purposes. The net pension liability uses the plan fiduciary net position in the calculation rather than the actuarial value of assets used in the funded ratio calculation above.

The components of the net pension liability at June 30, 2022, were as follows:

| Total pension liability     | \$<br>72,568,906,707 |
|-----------------------------|----------------------|
| Plan fiduciary net position | <br>54,514,012,008   |
| Net pension liability       | \$<br>18,054,894,699 |

Plan fiduciary net position as a percentage of the total pension liability 75.1%

#### **MEMBERSHIP**
